

WEB 3.0

Tokens | Crypto | NFT | DeFi | MetaVerse

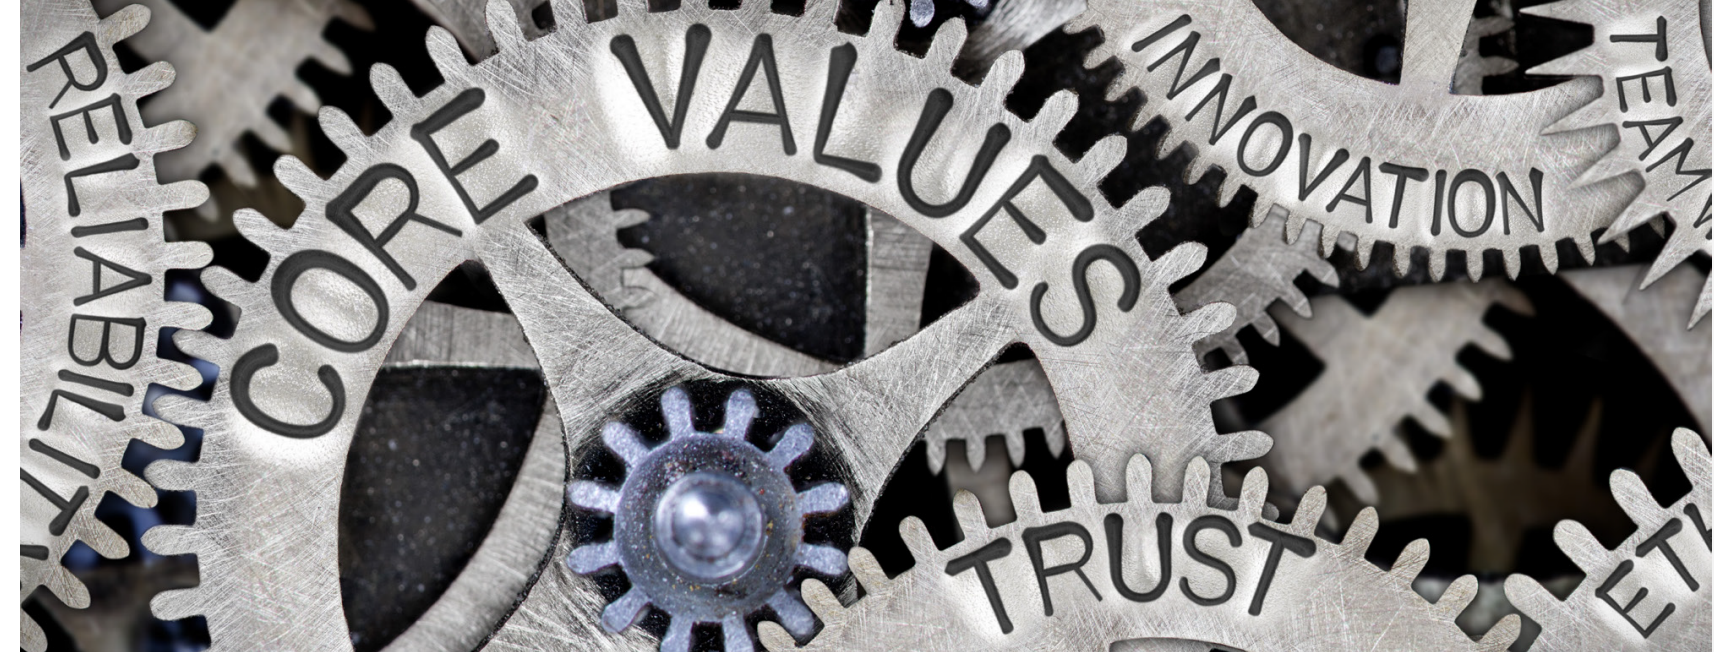

Blockchain Platform

BlockCerts Eliminates the Issues Web 2.0 Created & Covid Compounded:

Centralized Data. The Exposed Cloud. Legacy Tech.

- ✓ Centralized data breaches – 30 billion records exposed in 2020!
- ✓ Tracking and Privacy Risks on the “Exposed Cloud”
- ✓ Companies & gig workers struggling to meet digital’s new demands
- ✓ Sharable links exposing clients and company records
- ✓ Siloed individual software - holding data hostage
- ✓ Individual seat fees costing companies \$4,000 an employee

A New Platform & Ecosystem for a New Age

Privacy & Protection is Just the Beginning...

Competitors have evolved successfully with centralized solutions that leave critical issues open for most businesses. BlockCerts transforms traditional Cloud and SaaS to truly go digital with speed & agility, decentralized control and powered by integrated tools.

The “BlockCerts Inside” changes how to manage life’s personal and work business. It’s a new platform and ecosystem creating “Trust” and meeting the demands of a new age.

BlockCerts Goal

Every Business on Blockchain

- 1 Every Business or NFT Can Register
- 2 Blockchain Search
(think Google or Yahoo! of Yesterday)
- 3 The Gateway for Platform & Product Distribution

Benefits

- ✓ Simple Look-up
- ✓ No more Website Spoofing
- ✓ Find Authenticated Businesses
- ✓ Product and NFT Authentication and Tracking

Executive Summary

BlockCerts is leading a movement with Web 3.0 providing a **Secure Virtual Space Cloud Platform** to protect your identity, shield your data and provide a revolutionary new “Virtual Office” for Home & Business.

- ✓ “Every business on blockchain” with the 1st blockchain registry and search for businesses and NFTs!
- ✓ The ecosystem is driven by BCERTin Tools that use BCERTin tokens to transform traditional Cloud and SaaS for digital business.
- ✓ BlockCerts is the first company “powered by the people”, owned through the BCERTin token. BCERT tokens live on Uniswap & will be listed on Public Exchanges soon.
- ✓ The patented “secure virtual space technology”, with IDCERTin Authentication, is at the core of the platform. It’s KYC reimaged & integrated throughout workflows and the 1st on the blockchain.
- ✓ Choice provides a one-click dApp suite of critical personal and business tools to accelerate productivity, slash costs and disrupt the \$2 Trillion Silicon Valley seat fee model.
- ✓ BlockCerts supports all industries with over 400 dAPPS, and growing today. Solid, stable, easy-to-use BCERTin dAPPS provide Out-of-the-Box digital use cases to drive sales.
- ✓ Partnership with a top Consulting Firm, Channel Partners in 5 Continents, Selected for Canada Trade Accelerators

BCERTin

The BCERTinSide powers your BlockCerts Blockchain network

What Business Leaders are Saying About Web 3.0

The Why: rapid digitalization, fears of inflation and depreciation, both due to Covid-19.

"...it's gonna be transformational. ...it's very much like the internet in that it's a platform for permissionless innovation."

"Moving from 'intermediate technology', between the physical and the virtual world...DocuSign – not a full solution, as opposed to a cryptographically strong digital signature...the next step is moving to the fully-virtual solutions".

Ben Horowitz, Co-Founder, Andreessen Horowitz

"A "whole new class" of mainstream consumers entered the crypto space because of NFTs. Crypto is becoming cultural, it's becoming cool."

Cuy Sheffield, Visa's head of crypto

"All major financial institutions will soon be trading cryptocurrencies."

Vikram Pandit, Chairman, The Orogen Group & Former CEO, Citigroup

"Digital currencies are starting to get institutional adoption in a way that we hadn't seen before. I think we're seeing that on many fronts at once in terms of users, investors, partners, regulators."

Sam Bankman-Fried, founder and CEO of FTX

Portfolio Companies Create User Adoption and **New Revenues**

NFTs Mean Business

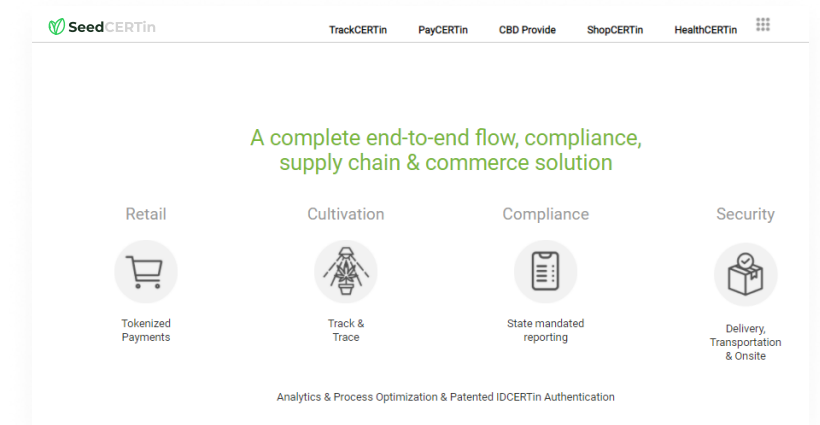

- Fractionalized Real Estate NFTs
- TV Shows Greenlighted
- NFT Tracking for Luxury Goods

Initial Companies Onboarding Now

- Provides Platform for hot NFT Market
- Beginning scale now

Seed to Sale Tracking

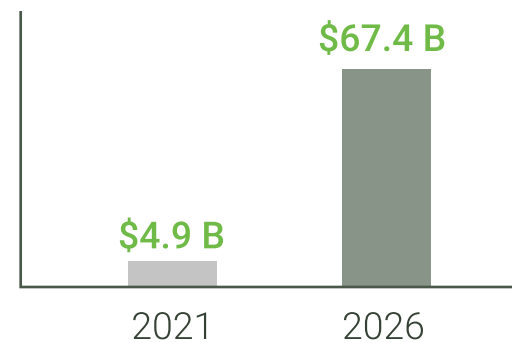

- Removes regulatory hurdles
- Eliminates payment challenges
- New MOU with the largest consulting company in this space

The Growth of Blockchain, NFTs and Crypto

The Growth of Blockchain, NFTs and Crypto

Blockchain 68.4% CAGR

USD 4.9 billion in 2021 to USD 67.4 billion by 2026, at a Compound Annual Growth Rate (CAGR) of 68.4%
